Objective

To obtain a challenging position in the field of Computer Science and Engineering where I can apply my programming, problem-solving, and software development skills, gain practical experience, and contribute to the growth of the organization while continuously developing my technical expertise.

Experience

- Self employed** January 2026 - Present
Freelance Software Developer
 - * Design and build backend services and desktop applications with C# and .NET.
 - * Model relational schemas in MS SQL Server; write stored procedures and tune queries.
 - * Ship REST APIs consumed by web and mobile clients, with authentication and role-based access.
- University Project Lab — AIUB · Dhaka, Bangladesh** 2025 - 2026
Software Development Intern
 - * Collaborated on a team building an internal management platform in ASP.NET Core.
 - * Implemented CRUD modules with Entity Framework Core and code-first migrations.
 - * Contributed to code reviews and Git-based feature workflows.

Education

Course / Degree	School / University	Grade / Score	Year
College	Rajshahi Government women's college	Gpa 4.94	2022
Bachelor in Computer Science and Engineering	American International University- Bangladesh	Cgpa 3.93	2024 to present

Skills

- LANGUAGES C++ · Java · SQL · Python · HTML · CSS · JavaScript
- PROGRAMMING & CONCEPTS Object-Oriented Programming · Data Structures & Algorithms · Problem Solving · Database Management
- TOOLS Git · GitHub · VS Code · IntelliJ IDEA · Code::Blocks
- CORE SKILLS Software Development · Debugging · Team Collaboration · Project Management · Technical Documentation

Achievements & Awards

- * Research Paper Published at International Conference on Emerging Trends and Innovations in ICT (ICEI 2026). * Successfully completed multiple academic software development projects. * Leadership Recognition Award * Certificate of Participation – Club Events
